11/25/2024	Manvir	Researching how to do drag-and-drop in Kivy using Python and tried some things that did not work unfortunately. It's hard to implement with the edit tasks already in place.	120	44.98333333
11/27/2024	Manvir	Drag-and-drop is almost working as intended now. Still need to do a few things but will need help.	75	
12/2/2024	Manvir	Showed Magaly what I have worked on and how to fix the things that aren't working as smoothly	15	
12/2/2024	Magaly	Looked at what Manvir has worked on and how to fix the things that aren't working as smoothly	15	
12/3/2024	Manvir	GTA Meeting	30	
12/3/2024	Magaly	GTA Meeting	30	
12/3/2024	Mariam	GTA Meeting	30	
12/3/2024	Shravya	GTA Meeting	15	
12/5/2024	Matthew	implemented UI fixes to the repeat modal (made spinner) etc., implemented a hover feature to display the details of events in calendar view	120	
12/6/2024	Matthew	fixed some bugs related to the details modal popup, and implemented switching to daily view when clicking on a day in calendar view	60	
12/6/2024	Manvir	Created edit button so drag-and-drop works	189	
12/6/2024	Matthew	finished Unifying the UI Shape and Size (need to fix scaling)	180	
12/7/2024	Mariam	Meeting to fix daily view date label	35	
12/7/2024	Manvir	Meeting to fix daily view date label and other stuff	95	
12/7/2024	Magaly	Meeting to fix daily view date label and other stuff	95	
12/7/2024	Magaly	Fixed events not populating in daily view	25	
12/7/2024	Mariam	Meeting to fix bugs in calendar view and daily view	55	
12/7/2024	Magaly	Meeting to fix bugs in calendar view and daily view	55	
12/7/2024	Manvir	Meeting to fix bugs in calendar view and daily view	40	
12/7/2024	Matthew	Modified spacing and sizing, gave up on scaling and just set floatlayout	120	
12/7/2024	Magaly	Worked on theme toggling	165	
12/7/2024	Matthew	Meeting to fix bugs and record video	220
